

# TWO ROLLS ROLLING MACHINE DV 10/2.5

## Use

- for rolling (curving) coats (boilers, fire extinguishers, tubes, air reservoir, small pressure vessels,...)

## Properties:

- rolling in one crossing
- ideal roundness without straight starts and ends
- high productivity

## Data:

Rolling width:	1000 mm
Sheet metal thickness:	max 2,5 mm
Min. diameter:	approx. 200 mm
Rolling speed:	9m/min
Movement of polyurethane cylinder:	hydraulic
Power supply:	5,5 KW
Weight:	1.400 kg
